

Att'y Dkt. No. 3075.004U.S. App. No: 10/042,332**IN THE CLAIMS:**

Please cancel claims 1-12, 14-16, 19-20 and 26 and amend the remaining claims as follows:

1-12. (Canceled)

13. (Previously Amended) A modular interface test adapter comprising:

a base comprising a housing having at least one connector module mounting hole and a tongue and groove structure along a substantial portion of a perimeter of said housing;

a cover removably mounted to said base, said cover having a tongue and groove structure mated with said tongue and groove structure of said base; and

a bushing comprising a housing having an opening therein and a clamp; wherein said bushing is removably mounted to at least one of said cover and said base.

14-16. Canceled.

17. (Amended) A modular test adapter according to claim 13 ~~14~~, wherein

said base further comprises a threaded hole; and

said cover further comprises a hole aligned with said threaded hole in said base when said cover is mated to said base.

18 (Previously Presented) A modular test adapter according to claim 17, further comprising a screw for removably securing said cover to said base, wherein said screw passes through said hole in said cover and screws into said threaded hole in said base.

19-20. Cancelled.

21. (Previously Presented) A modular interface test adapter according to claim 13 wherein said perimeter comprises a plurality of sides and said substantial portion of a perimeter comprises substantially all of at least one of said sides.

22. (Amended) A modular interface test adapter according to claim 13 ~~19~~ wherein

Att'y Dkt. No. 3075.004U.S. App. No: 10/042,332

said bushing is removably mounted to at least one of said base and said cover.

23. (Amended) A modular test adapter according to claim 13 ~~19~~, where said clamp is adjustable within slots in sides of said bushing.

24. (Amended) A modular test adapter according to claim 13 ~~19~~, further comprising a means for adjusting said clamp in said bushing.

25. (Amended) A modular test adapter according to claim 13 ~~19~~ wherein said clamp has an elongated shape with a first straight side and an opposing curved side.

26. Canceled
